LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Campbell Union School District
CDS Code: 43-69393-6046619
School Year: 2023-24
LEA contact information:
Patrick Sieler
Principal
(408) 364-4259

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding — called "supplemental and concentration" grants — to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2023-24 School Year
This chart shows the total general purpose revenue Campbell Union School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Campbell Union School District is $, of which $ is Local Control Funding Formula (LCFF), $ is other state funds, $ is local funds, and $ is federal funds. Of the $ in LCFF Funds, $ is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).
The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Campbell Union School District plans to spend for 2023-24. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Campbell Union School District plans to spend $ for the 2023-24 school year. Of that amount, $ is tied to actions/services in the LCAP and $ is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

**Increased or Improved Services for High Needs Students in the LCAP for the 2023-24 School Year**

In 2023-24, Campbell Union School District is projecting it will receive $ based on the enrollment of foster youth, English learner, and low-income students. Campbell Union School District must describe how it intends to increase or improve services for high needs students in the LCAP. Campbell Union School District plans to spend $ towards meeting this requirement, as described in the LCAP.
LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2022-23

This chart compares what Campbell Union School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Campbell Union School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022-23, Campbell Union School District's LCAP budgeted $ for planned actions to increase or improve services for high needs students. Campbell Union School District actually spent $ for actions to increase or improve services for high needs students in 2022-23.
Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2023-24]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Marshall Lane Elementary School currently serves 435 students in Transitional Kindergarten to 5th grade. An onsite preschool that is operated by the Campbell Union School District serves an additional 32 students. According to Datasource, our school population consists of students who are 37.2% Caucasian, 31.4% Asian, 15.2% Hispanic/Latino, and 12.2% two or more races. There are 10.8% English Language Learners and 12% are socioeconomically disadvantaged students in our school. Currently, we have no foster youth at our school.

Marshall Lane is located in the city of Saratoga and serves students from the surrounding communities of Saratoga, Los Gatos, Monte Sereno, Campbell, and San Jose. We emphasize academic achievement within a nurturing environment. Our success over the years is attributed to a dedicated and hard working staff, a well-rounded and challenging curriculum, active parental involvement, and a community devoted to supporting education.

Our school has received several awards in the past. Both the National Blue Ribbon Award and the California Distinguished School Award in 2012 and 2018 have been earned by our school. In addition, Marshall Lane was awarded the prestigious Caring School Climate Award for the 2014-2015 school year from Project Cornerstone. We also received a Bronze Award from Positive Behavior Intervention and Support (PBIS) in June 2019. Most recently, Marshall Lane was again honored by receiving a 2023 California Distinguished School Award.
Our vision statement is "Marshall Lane will be a school where educators and parents collaborate to provide a rigorous and meaningful educational experience for all students in a supportive school environment." Our Mission Statement is "Marshall Lane is a community that is committed to inspiring and empowering life-long learners who possess the mindset and skills to thrive in a changing world". Our staff has also created a shared definition of collaboration. "Collaboration is sharing ideas, strategies, challenges, and solutions in a safe and trusting environment. We do this in order to meet the needs of our students." Our focus at Marshall Lane is on supporting our students and partnering with our parent community to provide the best possible educational experience for our students.

The goals/metrics and the planned actions and services in the LCAP were created to address how we will implement improvement strategies to overcome the challenges facing our school. In the 2022-2023 school year, the school has benefitted from the addition of a part-time administrator to support our instructional goals. In the 2023-2024 school year, the addition of an Equity TOSA will further augment our ability to address the performance of students in need of greater support. We will continue work with stakeholders and parents to ensure that we are providing actions and services that will have a positive impact on student learning. At Marshall Lane, we celebrate successes as a school and focus on creating a lasting impact on the overall social/emotional health and academic progress of our students.

Our entire staff has worked tirelessly to provide a supportive and nurturing environment for our students. Several social-emotional programs have been implemented to support the challenges that students have faced since March 2020. There has also been a focus on enhancing our academic program to address student needs and to move achievement forward. We will continue to use both academic and survey data to focus our efforts where they are most needed and work as a collaborative team to do our best academically, socially, and emotionally for the children who have been entrusted to us.

**Reflections: Successes**
A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

The administration of the standardized testing for the 2022-2023 school year has just begun at our school site. We look forward to reviewing the results of the CAASPP assessments in the fall and they will be used to create a plan moving forward.

Information regarding student achievement is reflected on the 2022 California School Dashboard, which is the most recently updated information at this time. In examining our California Dashboard data, there was a lot to be proud of regarding student achievement, though the school is Additional Targeted Support for Improvement for Hispanic students (see below for additional information). Marshall Lane saw success in the following state indicators: All student groups were reported High or Very High in English Language Arts and Math. For the suspension indicator, 7 of 8 student groups were Low or Very Low on the dashboard. Our English Learner progress indicator status was High, with 61.3% of English learners making progress toward English Language proficiency.

In English Language Arts, our students performed at 81.5 points above the standard. For math, students were 79.2 points above standard.
Overall, the Marshall Lane students were 68.5 points above the standard in the area of math. English Learners were Very High in Math and Very High in English Language Arts. In addition, reclassified English learners were 101.7 points above standard in Language Arts and 97.8 points above standard in Math. English only students were 81.3 point above standard in ELA and 80.6 points above standard in Mathematics.

Local assessment data gathering in the spring of 2023 indicates that 83% of students in grades 2-5 were Early On/Mid/Above grade level on iReady Reading in the Spring. For math, 82% of students were Early On/Mid/Above grade level on iReady in the Spring. This represents a 13% improvement in reading and a 23% improvement in Math from the fall. In both areas, we exceeded the target of 80% or more in Early On/Mid/Above. For the winter administration of DIBELS, 81% of students were At/Above Benchmark. The school exceeded it's 80% target. Spring iReady data revealed solid gains in 4th grade math assessment scores.

**Reflections: Identified Need**

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

A review of the California Dashboard indicators shows the following areas of need:

- **Suspension:** Students with Disabilities Medium (2 or more levels above Overall student group)
- **Chronic Absenteeism:** Overall, Two or More Races, and White Medium, English Learners, Students with Disabilities High; Socioeconomically Disadvantaged and Hispanic Latino Very High

Based on our California Dashboard data for the 2022 school year, we must focus on attendance and alternate method of discipline other than suspension.

Marshall Lane was determined as eligible for Additional Targeted Support and Improvement (ATSI) as a result of Hispanic/Latino results on Chronic Absenteeism. Our ATSI status is due to Condition 2: One student group with all indicators at the lowest status but one indicator at another status level. Our LCAP reflects our work to address our area and student group under ATSI.

School improvement efforts for ATSI will be monitored at the district level in the following way:

**Chronic Absenteeism:**
- Monitor month over month attendance and provide schools with a report
- Follow the district's School Attendance Review Board procedures to notify parents of progressive absence protocols
- Engage the Community Liaisons and classroom teachers to connect with students experiencing chronic absenteeism via phone, email or letters
- Provide regular communication in parent/caregiver newsletters on the importance of attendance
- Monitor independent study requests carefully before approval

**Academic Indicators:**
Monitor academic performance by student group as outlined on the district's assessment calendar
Track student growth in data reports provided to school sites
Implement strategies outlined in the district MTSS plan aligned to tiered instruction for students needing additional support and monitoring
Ongoing collaboration between General Education and Special Education to ensure systematic supports are in place for students

Suspension:
Monitor month over month office discipline referrals (ODRS) and provide schools with a report
Implement Positive Behavior and Support (PBIS) at all schools
Ongoing collaboration and support between schools and Student Services to ensure tiered, systematic supports are in place for students

We meet with families to improve attendance and this year we began work to elevate our multi-tier systems of support to improve student outcomes and will be combining the efforts of ILT and MTSS teams to better understand all aspects affecting student performance to help staff respond effectively to improve student outcomes.

**LCAP Highlights**

A brief overview of the LCAP, including any key features that should be emphasized.

Our LCAP includes goals created out of a need to support all learners through the multi-tiered system of support process. Educational partners clearly indicate the need to support both academic and social-emotional needs for students. Our goals are aligned to the 8 state priorities and our district instructional vision to educate each child to their highest potential. Our strategic goal is to provide a high-quality first instruction for all students. Planned actions are identified as being provided for “all” students, “some” students (actions that provide increased or improved services for English Learners, Foster Youth, Homeless, Socio-Economically Disadvantaged or Students with Disabilities) or “few” students (intensive interventions for specific students) based on individual need. CUSD’s goals and overall actions are:

**Goal 1: Provide High-Quality First Instruction for all students.**

Identified actions in this goal will include: basic services such as hiring appropriately credentialed teachers, support staff and administrators, providing standards-aligned instructional materials for all, professional development, Professional Learning Community work, every child a reader by 3rd Grade, Profile of a Graduate, Math improvement and anti-racism district-wide goals, providing healthy learning spaces, and ensuring that we offer a broad course of study for all students - including opportunities for enrichment classes beyond the school day. For “some” students the plan describes the out-of-school time programs, additional intervention staff to support English learners, instructional associates to support MTSS, class size reduction, and additional staffing at high needs schools. For “few” students the plan outlines the summer learning program and intensive intervention supports offered through math and reading intervention specialists, ELD specialists, special education teachers on special assignment, a behavior specialist, and collaboration with special education specialists.

**Goal 2: Provide high-quality social-emotional learning for all students.**
Identified actions in this goal for all students will be implementation of the Panorama survey, designed to provide data around staff and student social-emotional wellness, Profile of a Graduate, and anti-racism implementation. Within this goal is also: classroom instructional practices and training to support social emotional learning, Culturally Responsive Teaching, Implementation of Positive Behavior interventions and Supports (PBIS), Character Strong curriculum, and strategies for promoting engagement by focusing on daily attendance. For “some” students the plan includes hiring counselors and psychologists, PBIS Safety and Support personnel, and Behavior Specialists to support mental health needs and offering parent and family education classes for identified parents and guardians. The plan includes contracting with an agency that tracks and monitors attendance to reduce chronic absenteeism. Professional development in Zones of Regulation, Safety Care, Trauma-informed practices, alternatives to suspension, and Universal Design for Learning and Anti-Racism are also included under this goal. For “few” students the plan outlines the ability to provide wrap-around services in partnership with Unconditional Learning by Seneca and School Linked services as well as behavior support plans co-created with teachers and the district Behaviorist.

Goal 3: Fully engage parents/guardians, students, and the community in support of students well-being.
Identified actions in this goal for all students will include community engagement through regular surveys and stakeholder engagement meetings, district communications, and implementation of SeeSaw and Schoology as a parent engagement tool. Actions for “few” students will highlight support offered through school-linked services support and Community Liaison support to engage families. Supportive actions for “few” in this area are bus transportation and community bus passes to support homeless students or foster students in need, partnerships with outside agencies, and nurse support for identified students/families.

Comprehensive Support and Improvement
An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified
A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Marshall Lane was not identified for CSI.

Support for Identified Schools
A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Marshall Lane was not identified for CSI.

Monitoring and Evaluating Effectiveness
A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Marshall Lane was not identified for CSI.
Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Close relationships with all of our stakeholder groups is important to us at Marshall Lane. The following is a list of dates on which we engaged in communicating with our community as well as gathering information and feedback from our different stakeholder groups at Marshall Lane Elementary School.

School Site Council Meetings (SSC)-- 10.28.22, 12.13.22, 2.28.23, 5.16.23, 5.23.23

Parent/Teacher Association Board meetings-- PTA meetings take place every two weeks, alternating between association and board meetings.

Parent/Teacher Association Meetings (PTA)-- PTA meetings take place every two weeks, alternating between association and board meetings.

Site English Language Advisory Committee (ELAC)-- 10.28.22, 2.3.23, 3.24.23, 5.12.23

Local Control Accountability Program support meetings (LCAP): 2.16.23, 3.9.23, 3.23.23, 4.28.23

A summary of the feedback provided by specific educational partners.

Marshall Lane is generally recognized as a vibrant learning community with a stable and collaborative teaching staff and engaged parent community. At the same time, it is also recognized that challenges remain in the post-pandemic learning environment as students continue to demonstrate needs in the areas academics and social/emotional health. Discussions with the Marshall Lane staff and community have revealed that our students still need academic support to include overall support in accelerating learning for all students, remedial intervention for students who are not achieving at the expected levels, and intervention supports (and potential additional services) for students who are struggling the most. Providing a robust response to identify and support struggling students will be one of our main priorities as we move into the 2023-2024 school year so we are able to assist our students in the area of academic achievement and social/emotional support.

Our School Site Council (SSC) and our Parent/Teacher Association (PTA) have both discussed the need for counseling services for students who are exhibiting signs of stress or behavior that indicate the need for additional assistance. Currently, we are working with a counselor from Skills for Kids, Parent, and Schools (SKIPS) three days per week. The counselor provides one-on-one counseling, meetings with parents, grade level projects for first and fourth grade classes, and a social skills group. The addition of one more day of site support from the
2021-2022 school year has not been sufficient to meet the social emotional needs of students in the current school year. SSC had expressed the need for greater administrative support in alignment to school initiatives around behavior and teacher support.

SSC and PTA recognize that the return to in-person instruction and the introduction of a new site administrator in 2022-2023 has impacted continuity in school programs. Rebuilding pre-pandemic programs, procedures, and practices is a clear area of focus. For example, improving campus climate and increasing students' sense of belonging at school can be facilitated by reintroducing PBIS behavior strategies and expectations in class and across campus. Academic support was also suggested since some children may need more help to catch up and reach grade level standards. After school homework clubs or tutoring have also been requested. So far, though, any individual after school teacher support for students has not been extended to include a more comprehensive after school homework club. This remains something to be considered if there are funds as well as personnel available to create an after school homework club during the 2023-2024 school year.

The Parent/Teacher Association (PTA) continues to work with teachers and administration to fund supplementary program support for students, as well as sponsoring enrichment activities and events. PTA fundraising events have reestablished funding resources to support our goals at the site. Recognizing the instructional initiatives from the district around new curriculum and that a greater portion of staff support costs have been assumed by the district, PTA initiatives at the school have shifted. In response, PTA has sought input from the school and teaching staff about how to best support teachers in the classroom in 2023-2024. Some of the areas of possible support include class size reduction, science instruction support, music, field trip logistical support, and more.

Our English Language Advisory Committee (ELAC) met and communicated their gratitude for the past support their children had received from an English Language Development (ELD) teacher. They have requested that the program continue to support their students and also mentioned the need for counseling and general academic support. After school homework assistance and tutoring were also requested. With the retirement of our part-time EL instructor in October, 2022, instruction for EL students has been integrated into classroom instruction. The ELD teacher position is currently open. The position is funded by our school site budget from two different sources. All Site Supplemental /Concentration funds are currently dedicated to funding the ELD teacher as are a portion out of the regular Site Base Funds.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

As mentioned above, our goals in the LCAP remain unchanged and are based on the continued needs of our Marshall Lane educational partners (students, families, larger community) as well as families throughout our district.

Goal 1: Provide high quality first instruction for all students.

Goal 2: Provide high quality social/emotional learning for all students.

Goals 3: Fully engage parents/guardians, students, and the community in support of student well-being.
As a result of the engagement of our Marshall Lane educational partners, the following items are reflected in this LCAP: additional positions provided by the Campbell Union School District for a part-time assistant principal, Equity TOSA, and MTSS aide. These positions have been created to support teachers and students in academic and social emotional areas. The school continues to use social/emotional learning resources for our teachers using the Character Strong Curriculum, Positive Behavior Intervention and Support (PBIS), and Skills for Kids, Parents and Schools program, intervention in reading for learning acceleration, as well as guest speakers for our staff and the community provided by our district.
Goals and Actions

Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Provide high quality academic first instruction for all students.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

CUSD is a data informed system. We use data to determine areas of strength and weakness and it helps us respond to instruction in professional learning communities. Current SBAC and local iReady academic data reports indicate that we have a disproportionate amount of students performing in tiers two and three, indicating that additional supports for students and teacher training are needed in tier 1. Data also demonstrates that there is an achievement gap between "all students" and our identified student-groups. (low socio-economic, English Learners, Foster Youth and students with disabilities). We examine academic data from both a growth and overall proficiency standpoint. SBAC data indicates that there is a trend of students not maintaining proficiency as they move from one grade level to the next in math. Because of this concerning data trend we have developed this goal to ensure that we are examining the quality of instruction that ALL students receive in tier 1. Improving our first instruction through our professional learning community work and the actions associated in this LCAP plan will lead to greater teacher efficacy and student growth and achievement levels. As part of our anti-racism work, we have aligned a goal in this area that is to increase the racial literacy of our system. In order to provide high quality first instruction we must allow staff to learn and lean into discomfort to uncover bias. We will develop along a continuum in our pursuit to better serve all students.

Goal Analysis [2022-23]
An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

<table>
<thead>
<tr>
<th>Action 1.1:</th>
<th>Posted ELD position remained unfilled. Instruction to support EL students pivoted to integrated ELD instruction. 1.4: Math instructional aide was not hired.</th>
</tr>
</thead>
</table>

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

| 1.1 Budget for ELD teacher remained unused. Position was posted but no viable candidates applied. |
| 1.4 Budget for Math instructional aide was not used. Position was posted but no viable candidates applied. |

An explanation of how effective the specific actions were in making progress toward the goal.

<table>
<thead>
<tr>
<th>Action 1.2: Reading Intervention teacher provided consistent, targeted support to address student needs in reading. Action 1.3: MTSS aide implemented PBIS strategies in K-1 grades to build rapport and engagement; Action 1.4: Math aide supplemented instruction with targeted, small group sessions. Action 1.5: Library aide established consistent access to leveled reading material for all students.</th>
</tr>
</thead>
</table>

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

For 2023-2024, funding sources for action 1.2 and 1.5 are shifting to district budget from PTA contributions to district allocation.

For 2023.2024, the following metrics have been adjusted:
- Literacy and Mathematics: Increase the percent of students who reach "Early On" and "Mid of Above Grade Level" in i-Ready: Campbell reports Winter results in the LCAP. Fall and Spring results are monitored locally.
- Beginning in 2023.2024, for the following two metrics, Campbell will report English Learner progress as the English Learner Cohort, a student group that contains all English Learners as of the first Wednesday in October. This creates consistency with state measures and a fixed cohort of students. Use of English Learners only resulted in a changing student group due to reclassification, and caused challenges with measurement of performance over time.
- Literacy: Increase the percent of students who reach “At or Above Benchmark” Overall on DIBELS assessment.
- Literacy and Mathematics: Increase the percent of students who reach "Early On" and "Mid of Above Grade Level" in i-Ready.

For 2023.2024, the Desired Outcome for the following metric has been adjusted:
• Increase the percentage of English Language Learners (ELs) making at least one level of progress on the English Language Proficiency Assessments for California (ELPAC): With the resumption of California School Dashboard reporting, the English Learner Progress Desired Outcome (goal) has been determined. 2023.2024 ELPAC Desired Outcome: The percentage of EL students making at least one level progress on the ELPAC will meet or exceed the State of California percentage.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
## Goals and Actions

### Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>Provide high quality social emotional learning for all students.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

CUSD is a data-informed system. We use data to determine areas of strength and needs and it helps us respond to instruction in professional learning communities. This goal was created to help the district establish a clear and articulated multi-tiered system of support. District data in this area indicates that we have a higher percentage of suspensions and absences for specific student-groups. Actions in this area will be designed to improve outcomes for all students, with targeted intervention for sub-groups where data indicates need. This goal is also important to help us reach our goals associated with becoming an anti-racist organization. As part of this work we aligned a goal to normalize conversations about race. This supports the healthy social emotional development of all students in our system. We must transparently identify and deconstruct issues of race and bias that are negatively impacting our system.

Goal Analysis [2022-23]
An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

No differences between planned action and implementation of actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between budgeted expenditures and actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.
SKIPS counseling, Toolbox, Project Cornerstone, and Recess 101 worked to bolster high quality social emotional learning for all students.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Added action 2.4: Recess 101. Service added behavioral supports to address social emotional well-being during unstructured time.

For 2023.2024, the following metric has been adjusted:
- Panorama Survey Results: CUSD no longer measures Emotional Regulation, shifting to Supportive Relationships, which is monitored locally.

For 2023.2024, the Desired Outcome for the following metric has been adjusted:
- Suspension Indicator Status: 2023.2024 Desired Outcome: Status of Very Low or Low Overall and for all Student Groups.
- Studer Education School Student Engagement Survey: The Overall Top Box (the percent of students reporting 5 'Strongly Agree') Desired Outcome will increase by 5% in 2023.2024 from the 2021.2022 baseline.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Goals and Actions

<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>Fully engage parents/guardians, and the community in support of student well-being.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

In Campbell, we realize that partnering with families is essential to help reach our goal of educating each child to their highest potential. We understand the research that says that students who have parents or guardians who are actively engaged in the educational process of children leads to better social emotional and academic results. This became even more apparent to us during the pandemic as we depended on a mutually beneficial partnership to ensure student success. Internal data in Campbell demonstrates that we have active parent leadership groups at each school. However, there is a need to more actively engage families who are representative of the community we serve. In order to meet our goals of becoming an Anti-Racist District we realize that we need more diverse perspectives when engaging families in support of our students. We have created an anti-racism goal that aligns to this LCAP goal and that is to tap the untapped voices in our system. To fully understand student needs we must directly connect with families to find out what supports and services will be most beneficial in helping children meet goals.

### Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

There were no substantive differences in planned actions and actual implementation of actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between budgeted expenditures and actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

By hosting events like STEAM day, Pumpkinfest, and Book Fares, and more, parents and the larger community were fully engaged in support of student well-being.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There were no changes to this goal.

For 2023.2024, the following metric has been added:

- Marshall Lane: 100%
• Parental Involvement in IEP: 100% of parents of students with IEPs report that the school district facilitated parent involvement as a means of improving services and results as part of the IEP process.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2023-24]

<td>$0.00</td>
<td></td>
</tr>
</tbody>
</table>

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

All of the actions described in the attached table seek to increase and improve services for EL, Foster Youth, and Low Income students. The needs of these students groups were considered first when determining their implementation. While all students in the district will benefit from these services, they are principally directed towards EL, Foster Youth, and Low Income students and we believe they will produce accelerated improvement for these groups. See attached table with Increased or Improved Actions and Services:
<table>
<thead>
<tr>
<th>LCAP Goal</th>
<th>District-Wide Actions/Services</th>
<th>Describe how this action/service meets the needs of your UDPs. How they were considered first, and (2) how these actions are effective in meeting the goals for these students.</th>
<th>Describe how action/service is the most effective use of funds to meet your goals for UDPs.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Goal 1</td>
<td>Action: 1 English Language Development Teacher</td>
<td>Hired a credentialed teacher to provide English Language Development instruction to all students who are classified as English Language Learners. The teacher supports these students in their acquisition of the English language.</td>
<td>Students who are English Language Learners need support as well as additional practice in using the language. Our ELD teacher uses the standardized ELA curriculum and works with students to review and preview the material. She also asks and answers questions to help with building reading comprehension. The teacher has a strong focus on writing since our data shows that out of the four areas of reading, writing, speaking and listening, writing is the area that keeps students from being reclassified most often.</td>
</tr>
</tbody>
</table>
A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Marshall Lane Elementary School is required to increase or improve services for EL, Foster Youth and low income students by 4.54% which is equal to $168,085 as shown above. This increased percentage is met by actions and services included in the Local Control Accountability Plan. The following actions described below are increased or improved and meet and/or exceed the totality of the required percentage increase as compared to services for all students.

Actions in the LCAP:

In the LCAP, Goal 1 is important for building the capacity of our teachers to better serve the unique needs of unduplicated students to achieve our goal of decreasing the number of students who need additional intervention. We will focus on building teacher capacity AND on the needed intervention for students to ensure they show progress toward moving into tier 1 (the lowest level of support needed, high-quality first instruction.) We have established a metric to monitor our iReady data at each tier multiple times during the year to ensure progress toward our goal.

1. ELD Teachers On Special Assignment provide increased instruction beyond regular classroom instruction by building the capacity of the teacher and offering small group support that wouldn't be available otherwise. Goal 1 Action 17
2. Reading Boot Camp and Summer programs offer increased instruction above and beyond classroom instruction outside of the instructional day for English learners, foster youth, and low-income students. Goal 1 Action 25
3. The ELD Coordinator is an additional position that only supports meeting the needs of English learners by ensuring that the ELD programs are high quality and provide capacity-building support for teachers to learn skills directly targeted at ELD instruction. Goal 1 Action 3.
4. Provide AVID Excel Tutors for our AVID Excel program to support English learners with a college-going culture. Goal 1 Action 27
5. Reading Intervention Teachers and school-based Teachers on Special Assignment provide additional intervention and data analysis for unduplicated pupils. Goal 1 Action 1
6. Math Specialists help to build the capacity of teachers to better meet the unique needs of unduplicated pupils and provide small-group instruction for targeted pupils. Goal 1 Action 6
7. Utilize iReady for an additional intervention tool targeted to support progress monitoring for unduplicated pupils performing below grade level. Goal 1 Action 14
8. Hire Educational Associates to provide small group instruction in classrooms as an additional service to unduplicated pupils needing advanced academic support. Goal 1 Action 16
9. Provide math intervention during out-of-school time as additional support for unduplicated pupils. Goal 1 Action 22
10. Hire a district-wide literacy administrator on special assignment to ensure that reading instruction is focusing on meeting the needs of unduplicated pupils and to lead the work of reading intervention teachers to ensure classroom teachers are provided with effective strategies to support the needs of low English learners. Goal 1 Action 23
11. Provide teacher stipends to allow for additional planning time above and beyond to meet with Math and/or Reading Interventions specialists to discuss intentional planning to support English Learners, students with and IEPs, Foster Youth, and low-income students performing below grade level. Goal 1 Action 7
12. Purchase supplemental curriculum to support the needs of unduplicated pupils. Goal 1 Action 19
13. Provide teacher professional development in Universal Design for Learning to ensure that equipped with skills to plan in advance for barriers unduplicated students may experience with access learning. Goal 1 Action 21

LCAP Goal 2
Actions in the LCAP in Goal 2 are important to help us meet our goals of ensuring that students feel connected to school and have social-emotional behavioral supports
1. Hire counselors, psychologists, and marriage and family therapists to provide services to reduce barriers to learning for unduplicated students. Goal 2 Action 1 and 4
2. Provide teacher training on de-escalation strategies and trauma-informed practices and Zones of Regulation to ensure that teachers. Goal 2 Action 6
3. Provide teacher training and curriculum for schools that specialize in social-emotional learning strategies. Goal 2 Action 6
4. Implement Panorama Surveys to assess the social-emotional development of students and look at data by student group to set goals for improvement. Goal 2 Action 7

LCAP Goal 3
Actions in the LCAP in Goal 3 are important to help us meet our goal of ensuring we have parent engagement that represents the community of students that we serve. It is also essential to support parents of unduplicated pupils to better understand how they can support students at home.
1. Provide teacher training in understanding how to effectively engage families in the educational process of students. Goal 3 Action 2
2. Provide translations for both oral and written communication for staff to ensure families are able to access important school information. Goal 3 Action 2
3. Hire Community Liaisons to principally support BIPOC populations to ensure the engagement of all families. Goal 3 Action 3
4. Hire a district-wide lead for parent and community engagement. Goal 3 Action 4

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

No additional concentration grant add-on funding received.

**Instructions**

**Plan Summary**

**Engaging Educational Partners**

**Goals and Actions**

**Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

**Introduction and Instructions**

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA’s programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
  
  - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

**Plan Summary**

**Purpose**

2023-24 Local Control Accountability Plan for Campbell Union School District
A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

**General Information** – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA’s LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year’s LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

**Engaging Educational Partners**
Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE’s website: https://www.cde.ca.gov/re/lc/.

Requirements and Instructions

Below is an excerpt from the 2018–19 Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

**Goals and Actions**

**Purpose**

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

**Requirements and Instructions**

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal**: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

- **Broad Goal**: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- **Maintenance of Progress Goal**: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.
Focus Goal(s)

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

**Consistently low-performing student group(s) criteria:** An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.
Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.

- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

**Low-performing school(s) criteria:** The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

**Measuring and Reporting Results:**
For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.
Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.
- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “Measuring and Reporting Results” part of the Goal.

</table>

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions**: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners**: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC Section 306*, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth**: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis**:

Enter the LCAP Year.
Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

**Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

**Purpose**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

**Requirements and Instructions**

*Projected LCFF Supplemental and/or Concentration Grants:* Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low-income, foster youth, and English learner students.
**Projected Additional LCFF Concentration Grant (15 percent):** Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year:** Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar:** Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

**Total Percentage to Increase or Improve Services for the Coming School Year:** Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

**Required Descriptions:**

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.
Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

**Unduplicated Percentage > 55 percent**: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55 percent**: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions are the most effective use of the funds to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:
School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:
An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

**Action Tables**

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
• Table 2: Contributing Actions Table (for the coming LCAP Year)
• Table 3: Annual Update Table (for the current LCAP Year)
• Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
• Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table
The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

• **LCAP Year:** Identify the applicable LCAP Year.

• **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

  See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

• **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

• **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

• **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

• **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —
Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is not included as contributing to meeting the increased or improved services.

If “Yes” is entered into the Contributing column, then complete the following columns:

- **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”

- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
• **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  o **Note**: For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

• **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

• **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

• **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

• **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

• **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

**Contributing Actions Table**
As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

**Annual Update Table**

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

**Contributing Actions Annual Update Table**

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  
  Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

**LCFF Carryover Table**

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
• **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

**Calculations in the Action Tables**

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

**Contributing Actions Table**

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column

- 5. Total Planned Percentage of Improved Services
  - This percentage is the total of the Planned Percentage of Improved Services column

- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

**Contributing Actions Annual Update Table**

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)
• 7. Total Estimated Actual Expenditures for Contributing Actions
  o This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

• Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  o This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

• 5. Total Planned Percentage of Improved Services (%)
  o This amount is the total of the Planned Percentage of Improved Services column

• 8. Total Estimated Actual Percentage of Improved Services (%)
  o This amount is the total of the Estimated Actual Percentage of Improved Services column

• Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
  o This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

**LCFF Carryover Table**

• 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
  o This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

• 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
  o This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

• 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
  o If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
• 13. LCFF Carryover — Percentage (12 divided by 9)
  ○ This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022
